

## Positions

**Assistant Professor of Physics**, Yale University, 2023 —  
**Guest Researcher**, Flatiron Institute, Center for Computational Astrophysics (CCA), 2023 —  
**Assistant Professor of Physics**, University of Connecticut, 2020 — 2023  
**Associate Research Scientist**, Flatiron Institute, CCA, 2019—2023  
**Flatiron Research Fellow** 2017 - 2019  
**Marie Curie International Outgoing Fellow** — 2014 - 2017: At Caltech, with visiting status at NASA's Jet Propulsion Laboratory, with the European reintegration phase at the Max Planck Institute for Radio Astronomy in Bonn, Germany.

## Education

University of Birmingham, Birmingham, UK — PhD, 2014  
University of Bologna, Bologna, Italy — M.Sc., 2009  
Carleton University, Ottawa, Canada — B.Sc (Double Honours), 2006

## Grants

- **Co-I, Finding massive BH binaries with gravitational waves and electromagnetic surveys**, LISA preparatory study #22-LPS22-0036, PI Jonathan Zrake, NASA, (2023-2026) \$200,000.
- **PI, The Era of Binary Supermassive Black Holes**, Moore Foundation grant for participation in the eponymous workshop at the Aspen Center for Physics, October 2024, \$20,000.
- **PI, An Empirical Blueprint for the Gravitational-Wave Background**, NSF AAG Collaborative grant with Jenny E. Greene (2021-2024), \$313,047.
- **Co-I, The NANOGrav Physics Frontier Center**, NSF Physics Frontier Center (2021-2026) \$282,503.
- **PI on four NASA Connecticut Space Grant** (Graduate and Undergraduate Students): total \$32,000
  - Abigail Moran (2023) \$6,000, Andrea Mejia (2023) \$10,000, Bjorn Larsen (2022) \$8,000, Andrew Casey-Clyde (2021) \$8,000.
- **Simons Foundation, PI on the following awards**, total \$146,101
  - 2023-2025, Award 1167523, Continuing Collaboration with the Flatiron Institute Institution: \$76,738
  - 2022-2023, Award 1036401, Searching for anisotropy in the gravitational wave background: \$49,363
  - 2020-2021, Award 840641, Research Support Grant: \$20,000
- **UConn Postdoc Seed Award**: Dr. Deborah Good (2022-2023) \$2,000
- **Amazon Web Services ML Award** — October 2018, Value of \$120,000
- **Marie Curie International Outgoing Fellowship** — 2014 - 2017, Project name "GW ASAP", Proposal number 623380, value €262,975 (\$330,000)

## Leadership, Mentorship, and Collaboration Work

- **Executive Committee** of NASA's Physics of the Cosmos Program Analysis Group (2023–2025)
- **Co-Chair, Gravitational Wave Science Interest Group**, NASA Physics of the Cosmos (2023-2025).
- **Chair of the 2020 & 2021 Gravitational Wave International Committee (GWIC) — Braccini Thesis Prize Committee**. As chair I assembled a team of 15 experts to evaluate the best PhD thesis across all fields of gravitational-wave science.
- **Founder and Chair** of the International Pulsar Timing Array gravitational wave analysis working group (March 2018-March 2020; end of term).
- **Member** of the GWIC-Braccini Thesis Prize committee (2019).
- **Ada Lovelace Director of Diversity**, Flatiron Institute, CCA, 2019-2023: Increase diversity in computation astrophysics by advising on gender balance, and all issues pertaining to equity and inclusion at CCA. Focused on actively increasing the diversity of Flatiron Fellow applicant pool to hire a more diverse

## C. M. F. Mingarelli, PhD

Fellows, and helping to create and develop the Inclusion, Diversity, Equity & Advocacy (IDEA) Scholar Program at the Flatiron Institute.

- **Chair:** European Pulsar Timing Array detection working group (2017-2018).
- **NANOGrav Contributions:** I am currently leading the targeted search for supermassive black hole binaries with the NANOGrav 15-yr data, am part of the leadership team for a new harmonic analysis of the GW background for the 15-yr data, for making principal component maps of the GW background with the 15-yr data, and for creating custom noise models for the 15-yr pulsars. Furthermore, I wrote the astrophysical interpretation of the 12.5-yr GW background results, the astrophysical interpretation of the 11-yr continuous GW searches, led the first astrophysical interpretation of the 9-year data; conceived of and ran analyses for primordial GWs for 9-yr data, carried out first search for anisotropy in the 9-yr data — results never published due to “anomaly” present in data which is an outstanding issue, and led the change in reporting GW limits from strain-only to  $\Omega_{\text{gw}}(f)$  which is more general.
- **Solar, Art Installation, CCA:** Together with David Spergel, I led the commissioning of a custom piece of scientific art for CCA from artist Lia Halloran. Halloran has also worked with Harvard and Caltech.
- **OzGrav Governance Committee (2017-2023):** OzGrav is a multimillion Australian GW collaboration. The governance committee meets at least once a year to advise on how OzGrav is run.
- **Supernova Foundation:** scientific mentor to women in astronomy and astrophysics in developing countries (July 2017 - January 2020).
- **Caltech Women Mentoring Women:** scientific mentor to women at Caltech (Oct 2014 — Jul 2016).

### Teaching, Mentoring, and Thesis Committees

**Graduate Advising:** Qinyuan Zheng (PhD advisor 2024 —, co-advising with Walter Goldberger, Yale), Bjorn Larsen (PhD advisor 2021 —, Yale), London Willson (PhD advisor 2022—2024, UConn), Andrew Casey-Clyde (PhD 2019—2024, UConn & Yale), Sean Oh (Master’s advisor, 2020)

**Undergraduate Advising:** Yu-Ting Chang (Yale, 2023 —), Rohan Shivakumar (Yale, 2023 —), Ellis Eisenberg (Yale, 2024 —), Forrest Hutchison (Yale 2024 —), John Kieley (Yale, 2023), Nicole Khusid (Senior Thesis Advisor and SURF, 2021-2023), Abigail Moran (Senior Thesis Advisor, and SURF, UConn 2021–2023), Chengcheng Xin (2019-2020, Columbia University and CCA), Brianna Isola (2018-2019 CCA and Stony Brook), Morgan Nañez (2018-2019 CCA and UC Berkeley).

### Teaching at Yale:

- AY 2024/25: PHYS 506 Mathematical Methods for Physicists
- AY 2023/24: PHYS 166 (lab class), PHYS/ASTR 343 (Intro astrophysics, relativity, and cosmology)

**Teaching at UConn:** AY 2020-2021 PHYS 1501 (Intro Physics), PHYS 2701 (Intro to astrophysics).

### PhD Thesis Committees:

- **External Examiner:** Andrea Derdzinski (Supervisor Zoltan Haiman, Columbia University, 2020), Aurelien Chalumeau (Supervisor Stas Babak, University Paris Cité, 2021)
- **Internal Committees (Yale):** William Tyndall (Supervisor Laura Newburgh, 2024), Jakob Kastelic (Supervisor Steve Lamoreaux, 2024), Chuan Tian (Supervisor Meg Urry, 2023).

### Telescope Use

- **Co-I Green Bank Telescope (1,723.50 hours),** The North American Nanohertz Observatory for Gravitational Waves, GBT24B-427 (May 2024)
- **Co-I Green Bank Telescope (21 hours),** High-Impact MSPs for the International Pulsar Timing Array, GBT17A-353 (Nov 2016)
- **Co-I Arecibo Telescope (32.5 hours),** High-Impact MSPs for the International Pulsar Timing Array, P3133 (Sep 2016)

### Referee Service Work

Nature Astronomy, Physical Review Letters, Physics Letters B, Physical Review D, Astrophysical Journal, Astrophysical Journal Letters, Monthly Notices of the Royal Astronomical Society, Classical and Quantum

## C. M. F. Mingarelli, PhD

Gravity, Astronomy and Astrophysics (A&A), and the Journal of Cosmology and Astroparticle Physics (JCAP). NSF Astronomy and Physics Grants, and NASA grant panels.

### Code Sharing for the Scientific Community

Codes and lecture notes are available on github account, <https://github.com/ChiaraMingarelli>. Primarily in Python and publish my codes with Jupyter notebooks. Public codes from Mingarelli et al. (2017) have been widely used by the community, including researchers at Imperial College London, CCA and UConn.

### Selection of Prizes, Honors and Awards

- ICBS Frontiers of Science Award in Astrophysics and Cosmology, 07/2024. Shared with NANOGrav.
- Marie Curie Alumni Association, 2023 Career Award, €1500, awarded 03/2024.
- Public Voices Fellow at Yale University, The OpEd Project, 2023-2024.
- HEAD Early Career Award, American Astronomical Society, 2023.
- Nature “Inspiring Women in Science Award”, Scientific Achievement Category, 2022 runner-up.
- Marie Curie International Outgoing Fellowship — 2014 - 2017.
- Marie Curie Actions “Communicating Science” Prize for 2017.
- Woman Physicist of the Month, American Physical Society, November 2016.
- Springer Thesis Award — 2015, Thesis published by Springer Theses with \$650 cash prize.

### Recent Conference and Meeting Organization

- SOC Chair, KITP Rapid Response, “Gravitational Wave Background Found in Pulsar Timing Arrays: Implications for Merging Supermassive Black Holes”, Santa Barbara, November 12th-22nd, 2024.
- SOC, Aspen 2025 Winter Conference Organizer: “The Era of Binary Supermassive Black Holes: Coordination of Nanohertz-Frequency Gravitational-Wave Follow-up”, Feb 2nd - 7th 2025
- SOC Chair, Yale Gravitational Wave Symposium, Yale University, November 20th-21st 2023
- SOC Chair, NANOGrav Spring Meeting, CCA, NY, March 2022
- SOC, Gravitational Wave Physics and Astronomy Workshop (GWPAW), AEI Hannover, December 2021
- SOC, Fast Radio Bursts: theory meets observations, CCA Feb 2020
- SOC, NANOGrav Collaboration Meeting, Cornell, October 2019
- SOC Chair, Eternal Multimessenger Workshop, CCA, NY, August 2018
- SOC Chair, 1st International Pulsar Timing Array Hack Week, CCA, NY, December 2017

### Public Engagement in Science

#### Selection of Television Appearances and Podcasts:

- NASA’s Universe of Learning Science Briefing, Gravity and Gravitational Waves, October 3rd 2024
- The Supermassive Podcast, Royal Astronomical Society, September 2024
- World Science Festival with Brian Greene, “Gravitational Waves and the Dark Universe”, August 2023
- Robinson Erhardt Podcast, “Chiara Mingarelli: Supermassive Black Holes & the Gravitational Wave Background”, Episode 108
- Sean Carroll’s “Mindscape” podcast, “Searching for Black Holes with Pulsars”, episode 212
- Cool Worlds Podcast, “Chiara Mingarelli - NANOGrav, Background Gravitational Waves, Black Holes”, Episode 3
- Science In Action — BBC World Service “Melting of Greenland ice sheet”
- Daniel and Jorge Explain the Universe “How to use the whole galaxy to hear huge gravitational waves”
- Origins with Dr. Natasha Wilson “Dr. Chiara Mingarelli: Starry Night Skies, Supermassive Black Holes, and Wavy Spacetime”
- How the Universe Works — Science Channel, Seasons 5, 7, 8, 9 and 10
- Nova’s “Universe”, Orbital Path podcast with Michelle Thaller;
- Story Collider podcast, “How I Ended Up At the Center of the Universe”

## C. M. F. Mingarelli, PhD

### Popular Science Articles

Picture This: Making Waves, for Pioneer Works, 2024; Nautilus Magazine, “A Supermassive Test for Einstein’s Famous Theory”, by Melize Ferrus and CMF Mingarelli; Scientific American, 2023; “Searching for the Gravitational Waves LIGO Can’t Hear”, by CMF Mingarelli, 2016; Amy Poehler Smart Girls, “Conversations with a Theoretical Astrophysicist”, invited blog series for Women’s Month 2016

### High Profile Public Lectures

Amazon MARS 2017 — 2024. Two talks given to Jeff Bezos (2017 and 2024); Dreamworks Animation Studios, Los Angeles, CA, USA; Ad Astra Academy (owned by Elon Musk), Bel Air, CA; Adler Planetarium, “Adler After Dark”, Chicago, IL, USA.

### Recent Invited Talks

Over 80 invited talks at world-class research institutes such as Caltech, Princeton, Harvard, Cambridge, and NASA Headquarters, as well as high-profile meetings such as the American Astronomical Society, the American Physical Society, LISA symposium, and Amaldi. A complete list of talks is available upon request.

1. UCSB, Department of Astronomy and Astrophysics Colloquium, Santa Barbara, November 2024
2. Center for Particle Cosmology, University of Pennsylvania, November 2024
3. XIX Brazilian School of Cosmology and Gravitation, Rio de Janeiro, Brazil, September 2024
4. Stony Brook University, Physics and Astronomy Colloquium, September 2024
5. IoA50: New Frontiers of Astronomy, invited talk, Cambridge University, UK, July 2024
6. Royal Swedish Academy of Science, Gravitational Wave Symposium, guest speaker, June 2024
7. GRAPPA Colloquium, University of Amsterdam, June 2024
8. Black Hole Initiative annual meeting, Harvard University, invited talk, May 2024
9. Leung Center for Center for Cosmology & Astroparticle Physics, National Taiwan University, March 2024
10. APS March Meeting, Plenary Talk in the Kavli Symposium, Minneapolis, March 2024
11. Rutgers Department of Physics & Astronomy Colloquium, New Brunswick, December 2023
12. McGill Physical Society Colloquium, Montreal, December 2023
13. Flatiron Institute, “Black Holes on Broadway”, Plenary talk, December 2023
14. NYU Physics Department Colloquium, November 2023
15. CMB-S4 Summer Meeting, Plenary Talk, August 2023
16. Dark Side of the Universe 2023, Kigali Rwanda, Plenary Talk, July 2023
17. Giant Magellan Telescope Community Meeting, Plenary Talk, September 2022
18. TeVPA, Plenary Talk, Queen’s University, August 2022
19. ZTH Colloquium, Zurich, May 2022
20. Yale University, Department of Astronomy Colloquium, April 2022
21. Johns Hopkins & Space Telescope Science Institute Colloquium, March 2022
22. Cambridge Cosmology Seminar, March 2022
23. Galileo Galilei Institute, Colloquium, Florence, November 2021
24. Amaldi 14, Plenary Talk on the NANOGrav 12.5-yr results, July 2021
25. Stony Brook University, Astronomy Seminar, May 2021
26. Padova Cosmology Seminar Series, Padova, Italy, April 2021
27. Primordial Black Holes Confront GW Data, Plenary Talk, Rome, February 2021
28. GRASP Colloquium, Utrecht University, Netherlands, January 2021
29. Columbia University, Astronomy Colloquium, January 2021

# Publications

**Summary statistics: h index: 57; citations: 16,463** as of October 20th, 2024 on Google Scholar; refereed papers 100, total 117.

## Monographs

- **C. M. F. Mingarelli**, Introduction to Gravitational Wave Astronomy, under contract with Princeton University Press. In preparation
- **C. M. F. Mingarelli**, Gravitational Wave Astrophysics with Pulsar Timing Arrays, Springer Thesis Series 2016, ISBN 978-3-319-18400-5.

**An asterisk \* denotes a paper led by one of my students.** I have also listed my PTA-related papers and not the LIGO ones, since they are most relevant.

## Top 5 publications:

1. [1,041 citations] G. Agazie with **C. M. F. Mingarelli** et al., The NANOGrav 15 yr Data Set: Evidence for a Gravitational-wave Background, *ApJL*, Volume 951, 2 (2023).
2. [175 citations] **C. M. F. Mingarelli**, T. J. W. Lazio, A. Sesana et al., The local nanohertz gravitational-wave landscape from supermassive black hole binaries, *Nature Astronomy*, Volume 1 (2017)<sup>1</sup>.
3. [262 citations] P. Lasky, **C. M. F. Mingarelli**, T. Smith et al., Gravitational-wave cosmology across 29 decades in frequency, *Phys. Rev. X*, Volume 6, Issue 1, 011035 (2016)<sup>2</sup>.
4. [115 citations] **C. M. F. Mingarelli**, J. Levin, T. J. W. Lazio, Fast Radio Bursts and Radio Transients from Black Hole Batteries, *ApJL*, Volume 814, L20 (2015).
5. [171 citations] **C. M. F. Mingarelli**, T. Sidery, I. Mandel and A. Vecchio. Characterizing stochastic gravitational wave background anisotropy with Pulsar Timing Arrays. *Phys. Rev. D* 88, 062005 (2013).

## Submitted

1. F. Semenzato\*, J. A. Casey-Clyde\*, **C. M. F. Mingarelli**, et al., Cross-Correlating the Universe:
2. The Gravitational Wave Background and Large-Scale Structure, submitted to PRX.
3. J. A. Casey-Clyde\*, **C. M. F. Mingarelli**, et al., The NANOGrav 15 yr Data Set: Looking for Signs of Discreteness in the Gravitational-wave Background, under review at *ApJ*, arXiv:2404.07020
4. J. A. Casey-Clyde\*, **C. M. F. Mingarelli**, J. E. Greene, A. D. Goulding, S. Chen, J. R. Trump, Quasars Likely Host Supermassive Black Hole Binaries, under review at *ApJ*, arXiv:2405.19406

## First author and Mingarelli Group papers

5. B. Larsen\*, **C. M. F. Mingarelli**, et al., The NANOGrav 15 yr Data Set: Chromatic Gaussian Process Noise Models for Six Pulsars, *ApJ* Volume 972, Issue 1 (2024).
